## **NOTICE OF AMENDMENT**

### **CERTIFIED MAIL - RETURN RECEIPT REQUESTED**

December 21, 2007

Ms. Tamara Murray  
President  
Salmon Resources Ltd.  
2450 Teller Street  
Lakewood, CO 80214

**CPF 3-2007-5034M**

Dear Ms. Murray:

On November 7 and 8, 2006, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected Salmon Resources LTD. (SR) procedures for operator qualification (OQ) in Marysville, Michigan.

On the basis of the inspection, PHMSA has identified the apparent inadequacies found within Salmon Resources' plans or procedures, as described below:

1.     **§ 195.505 Qualification program.**

**Each operator shall have and follow a written qualification program. The program shall include provisions to:**

**(a) Identify covered tasks;**

**(b) Ensure through evaluation that individuals performing covered tasks are qualified;**

**(d) Evaluate an individual if the operator has reason to believe that the individual's performance of a covered task contributed to an incident as defined in Part 195;**

**(f) Communicate changes that affect covered tasks to individuals performing those covered tasks;**

**(g) Identify those covered tasks and the intervals at which evaluation of the individual's qualifications is needed;**

**(i) After December 16, 2004, notify the Administrator or a state agency participating under 49 U.S.C. Chapter 601 if the operator significantly modifies the program after the Administrator or state agency has verified that it complies with this section.**

**§ 195.503 Definitions.**

**Qualified means that an individual has been evaluated and can:**

**(a) Perform assigned covered tasks; and**

**(b) Recognize and react to abnormal operating conditions.**

**§ 195.507 Recordkeeping.**

**Each operator shall maintain records that demonstrate compliance with this subpart.**

The following inadequate procedures were noted regarding your OQ program:

- A. Salmon Resources (SR) OQ plan does not adequately address who is responsible for reviewing and ensuring contractors and subcontractors are following its plan. Salmon Resources has contracted Marysville Hydrocarbons to implement all of its OQ plan but its plan specifies that Salmon Resources will be overseeing the OQ plan and its implementation including, contractor matters.
- B. SR's program has covered tasks which are very broad such as "perform maintenance." These task titles should be broken into more definitive individual tasks so that qualification can appropriately be determined and tracked for both company and contract individuals. Additionally, the covered task of pigging the pipeline was not included as a covered task and had been performed. SR should review its covered task list and include those tasks performed on the pipeline.
- C. SR's program does not specify the evaluation method requirements for each task. Also, the plan should state the evaluation methods required for contractors or subcontractors if different from Marysville Hydrocarbons' individuals who perform most of the operations and maintenance on the pipeline. The plan should also address evaluation methods required for reevaluation if different than initial qualification methods. SR's plan does not state the test score

requirements for accepting individuals as qualified and who reviews the individuals as qualified for the in-house qualification.

- D. SR's program does not address the need to evaluate the company procedure in addition to the individual's performance when determining contributing factors to an accident. The program also needs to address who is responsible for conducting the evaluation and address this in the O&M procedure "Analyzing Pipeline Accidents."
- E. SR's program does not address remedial actions taken regarding contract individuals found to have contributed to an accident if different than company individuals.
- F. SR's program does not address task specific AOCs on most task sheets in Appendix E.
- G. SR's plan does not state how contractors are to react to AOCs if different than the operator's individuals.
- H. SR's plan does not clarify who is responsible for evaluating performance of its operator qualification program and implementation of improvements.
- I. SR's plan does not clarify who is keeping records and where they are kept.
- J. SR's plan does not clarify who will be making updates and revisions to the OQ program and, if significant, notify PHMSA.
- K. SR's program does not address who is responsible for ensuring OQ issues are addressed during mergers and acquisitions and a time frame for addressing any action to be taken.

#### Response to this Notice

This Notice is provided pursuant to 49 U.S.C. § 60108(a) and 49 C.F.R. § 190.237. Enclosed as part of this Notice is a document entitled *Response Options for Pipeline Operators in Compliance Proceedings*. Please refer to this document and note the response options. Be advised that all material you submit in response to this enforcement action is subject to being made publicly available. If you believe that any portion of your responsive material qualifies for confidential treatment under 5 U.S.C. 552(b), along with the complete original document you must provide a second copy of the document with the portions you believe qualify for confidential treatment redacted and an explanation of why you believe the redacted information qualifies for confidential treatment under 5 U.S.C. 552(b). If you do not respond within 30 days of receipt of this Notice, this constitutes a waiver of your right to contest the allegations in this Notice and authorizes the Associate Administrator for Pipeline Safety to find facts as alleged in this Notice without further notice to you and to issue a Final Order.

If, after opportunity for a hearing, your plans or procedures are found inadequate as alleged in this Notice, you may be ordered to amend your plans or procedures to correct the

inadequacies (49 C.F.R. § 190.237). If you are not contesting this Notice, we propose that you submit your amended procedures to my office within 30 days of receipt of this Notice. This period may be extended by written request for good cause. Once the inadequacies identified herein have been addressed in your amended procedures, this enforcement action will be closed.

In correspondence concerning this matter, please refer to **CPF 3-2007-5034M** and, for each document you submit, please provide a copy in electronic format whenever possible.

Sincerely,

A handwritten signature in cursive script, appearing to read "Ivan A. Huntoon".

Ivan A. Huntoon  
Director, Central Region  
Pipeline and Hazardous Materials Safety Administration

Enclosure: *Response Options for Pipeline Operators in Compliance Proceedings*

## **Response Options for Pipeline Operators in Compliance Proceedings**

The requirements of 49 C.F.R. Part 190, Subpart B (§§ 190.201–190.237) govern response to Notices issued by a Regional Director, Pipeline and Hazardous Materials Safety Administration (PHMSA).

Be advised that all material submitted by a respondent in response to an enforcement action is subject to being made publicly available. If you believe that any portion of your responsive material qualifies for confidential treatment under 5 U.S.C. 552(b), along with the complete original document you must provide a second copy of the document with the portions you believe qualify for confidential treatment redacted and an explanation of why you believe the redacted information qualifies for confidential treatment under 5 U.S.C. 552(b).

### **I. Procedures for Responding to a NOTICE OF PROBABLE VIOLATION:**

Within 30 days of receipt of a Notice of Probable Violation, the respondent shall respond to the Regional Director who issued the Notice in the following way:

#### **a. When the Notice contains a proposed CIVIL PENALTY\* --**

1. Pay the proposed civil penalty and advise the Regional Director of the payment. This authorizes PHMSA to make findings and to close the case with prejudice to the respondent. Payment terms are outlined below;
2. Submit written explanations, information, or other materials in response to the allegations and/or seek elimination or mitigation of the proposed civil penalty. Refer to 49 C.F.R. § 190.225 for assessment considerations, which include the respondent's ability to pay and the effect on the respondent's ability to stay in business, upon which civil penalties are based; or
3. Request a hearing as described below to contest the allegations and/or proposed assessment of a civil penalty.

#### **b. When the Notice contains a proposed COMPLIANCE ORDER\* --**

1. Notify the Regional Director that you intend to take the steps in the proposed compliance order;
2. Submit written explanations, information, or other materials in answer to the allegations in the Notice and object to or seek clarification of the proposed compliance order items in whole or in part; or
3. Request a hearing as described below to contest the allegations and/or proposed compliance order items;

c. When the Notice contains a **WARNING ITEM** --

No written response is required. The respondent is warned that if it does not take appropriate action to correct these items, enforcement action will be taken if a subsequent inspection reveals a violation.

\* Failure of the respondent to respond to the Notice within 30 days of receipt constitutes a waiver of the right to contest the allegations in the Notice and authorizes the Associate Administrator for Pipeline Safety to find facts as alleged in the Notice without further notice to the respondent and to issue a Final Order.

II. **Procedures for Responding to a NOTICE OF AMENDMENT\*--**

Within 30 days of receipt of a Notice of Amendment, the respondent shall respond to the Regional Director who issued the Notice in the following way:

- a. Notify the Regional Director of your plans to address the inadequacies identified in the Notice;
- b. Submit written explanations, information, or other materials in answer to the allegations in the Notice and/or object to or seek clarification of the proposed amendment items in whole or in part; or
- c. Request a hearing as described below to contest the allegations in the Notice.

\* Failure of the respondent to respond to the Notice within 30 days of receipt constitutes a waiver of the right to contest the allegations in the Notice and authorizes the Associate Administrator for Pipeline Safety to find facts as alleged in the Notice without further notice to the respondent and to issue a Final Order

III. **Procedure for Requesting a Hearing**

A request for a hearing must be in writing and accompanied by a statement of the issues that the respondent intends to raise at the hearing. The issues may relate to the allegations, new information, or to the proposed compliance order or proposed civil penalty amount. Refer to 49 C.F.R. § 190.225 for assessment considerations upon which civil penalties are based. A respondent's failure to specify an issue may result in waiver of the right to raise that issue at the hearing. The respondent's request must also indicate whether or not respondent will be represented by counsel at the hearing. Failure to request a hearing in writing within 30 days of receipt of a Notice waives the right to a hearing. In addition, if the amount of the proposed civil penalty or the proposed corrective action is less than \$10,000, the hearing will be held by telephone, unless the respondent submits a written request for an in-person hearing. Complete hearing procedures can be found at 49 C.F.R. § 190.211.

IV. **Extensions of Time**

An extension of time to prepare an appropriate response to a Notice may be granted, at the agency's discretion, following submittal of a written request to the Regional Director. The request must indicate the amount of time needed and the reasons for the extension. The request must be submitted within 30 days of receipt of the Notice.

V. **Freedom of Information Act**

Any material prepared by PHMSA, including the violation report, the Notice, and any order issued in this case, and any material provided to PHMSA by the respondent, may be considered public information and subject to disclosure under the Freedom of Information Act (FOIA). If the information you provide is security sensitive, privileged, confidential or may cause your company competitive disadvantages, please clearly identify the material and provide justification why the documents, or portions of a document, should not be released under FOIA. If we receive a request for your material, we will notify you if PHMSA, after reviewing the materials and your provided justification, determines that withholding the materials does not meet any exemption provided under the FOIA. You may appeal the agency's decision to release material under the FOIA at that time. Your appeal will stay the release of those materials until a final decision is made.

VI. **Small Business Regulatory Enforcement Fairness Act Information**

The Small Business and Agricultural Regulatory Enforcement Ombudsman and 10 Regional Fairness Boards were established to receive comments from small businesses about federal agency enforcement actions. The Ombudsman will annually evaluate the enforcement activities and rate each agency's responsiveness to small business. If you wish to comment on the enforcement actions of the Pipeline and Hazardous Materials Safety Administration, call 1-888-REG-FAIR (1-888-734-3247) or go to [http://www.sba.gov/ombudsman/dsp\\_faq.html](http://www.sba.gov/ombudsman/dsp_faq.html).
